

Dear Parents and Carers,

Vermont Primary School has a long and proud tradition of creating lifelong learners who are prepared and ready to be upstanding citizens who make valuable contributions to their community. To support students to reach their full potential we offer extensive and rigorous learning aimed at students' individual point of need, and nurture academic excellence as well as social and emotional development. Our students know what it is to be respectful and responsible, and our programs reflect our core values and school culture.

The ongoing support of families in the form of Voluntary Contributions is vital in allowing the school to provide rich and varied learning opportunities, especially those beyond the Victorian Curriculum. We offer extensive Specialist programs, including Performing Arts (Music), Visual Arts, Physical Education, STEM and Digital Technologies (including Robotics and 3D Printing), Indonesian as well as additional programs including Extension and Enrichment, Intervention (Literacy and Numeracy), Wellbeing Supports, Chaplaincy Programs and Literacy Assessment and Support.

While Parent Contributions are voluntary in Victorian schools, the contributions that are made mean that we can continue to offer specialised and additional opportunities to our students, including upgrading and adding to our technology and sports equipment and updating classroom resources.

Please find below Vermont Primary School's voluntary financial contributions for 2026, which include an overview of where your contributions go. Department of Education guidelines mandate that schools are unable to provide parents with a statement of fees. With this in mind, we ask that you carefully review the recommended voluntary contributions for your child/children.

For further information, please refer to the attached information or contact the office for clarification.

We are looking forward to another great year of learning and growing together.

Yours sincerely,

Jess Mann
Principal
